Air Cargo Professional Development Workshop

The principle objective of this course is to provide a broad overview of the air cargo industry and to create awareness of the underlying marketing, financial, operational, and competitive factors which influence management decision-making.

Participants will:

- Learn first-hand how market forces affect supply chain, revenue, and financial management.
- Work in teams or simulated cases studies to facilitate application of the concepts covered in real-world scenarios in order to improve retention.

Who should attend?

- Junior to senior managers in the air cargo chain
- Logistics, CFS/DFSAs, ground handlers, airports, logistics service providers, CMAA, and anyone interested in learning more about the industry.
